## wines on tap

You're probably wondering what this "tap" business is all about. This is wine direct from the wineries, in stainless steel kegs. There are less sulfites than bottles & without all of the issues that come along with bottles. It's fresh & every glass is as good as the first. And it's "green"! No bottles, no corks & no waste. We serve our wines at the proper temperature. Our red wines are at 59° and white wines are served at 49°. Have faith in the tap & enjoy!
